## 1 Overview

This page lists external Lucene resources. If you have written something that should be included, please post all relevant information to one of the mailing lists. Nothing listed here is directly supported by the Lucene developers, so if you encounter any problems with any of this software, please use the author's contact information to get help.

If you are looking for information on contributing patches or other improvements to Lucene, see [How To Contribute](#) on the Lucene Wiki.

## 2 Lucene Tools

Software that works with Lucene indices.
